- Global Exports
- Manufacturer Warranty
- Vehicle Maintenance
- Carbon Credits Trading

*“ Together, our vision is to make VBD Automotive Technologies the natural partner of choice for all our customers in the transport sector.”*

Biodiesel can be used in vehicles with only minimum modifications to engines. Manufacturer warranties increasingly cover the use of biodiesel blends with mineral diesel of up to 20% (B20). Biodiesel's higher flash point and ignition quality, known as cetane value, enables diesel engines to burn more efficiently and cleanly.
